

WWCC Roller Contest 2016

January 16th

We had 14 youth riders and the overall winner was Seb Bacon now riding in the U/16 age group. Riding a fixed wheel track bike he peddled rapidly but smoothly to victory.

Behind Seb was a close competition in both the U/14's and U/12's categories with the ride of the night coming from Little Miss Grace Lister. She was not only fastest in her category but also outshone all the U/14's including the boys!

Both the Girls and the Boys enjoyed some close racing with many using experience gained from the roller training conducted over the winter.

The Adult competition was a straight head to head between two former Champions: Steve White and Robin Kyte.

Steve held a slender advantage after the 500M burst and it was all to play for in the kilometer race. Both riders took the first 500M at a steady pace and it was Steve White who attacked first in the closing stages, but wily old campaigner Robin Kyte judged his effort to perfection passing Steve in the closing meters to take the overall win by the narrowest of margins: Less than 1/10th of a second!

Surely the closest ever finish to this annual competition.

Robin Kyte
